Bank Clearings Increase-Agriculture is a Paying Industry-Manufactures Doing Well.

"Business experts assert that Canada is on the threshold of perhaps the most prosperous era in her history. The unprecedented value of the farm products of 1915, together with the very large output of factories working on munitions of war has suddealy brought the country late a position, financially, scarcely hoped for as a nation for years to come. The wealth of Western Canada is the country had no wheat at all It would will be filmous as a hard of successful farmers on account of its stock production. From one shipping point (High River, Alberta) over \$75,000.00 worth of horses have been sold in the last two months. The average price to the farmer has been about \$175.00 per head. According to Government returns there are a million and a half horses in Manitoba, Saskatchewan and Alberta, worth probably \$150,000,000, The investments which farmers of

Western Canada are making in livestock and farm improvements are good evidence of the fact that they have money for these purposes. It is apparent, however, that they are also spending some of their profits on those things which will bring greater comfort and enjoyment to themselves, their wives and their families. The automobile trade all through the country is particularly active, and shows that in two months a million dollars' worth of automobiles have been sold largely to farmers. ### WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?"
"Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pein and suffering.

It has relieved women from some of the worst forms of female ills, from displacements inflammation, ulceration, irregularities, pervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman whois well and who has never suffered to realize how these poor, suffering we-men feel when restored to health; their keen desire to help other women who are suffering as ( they did.
